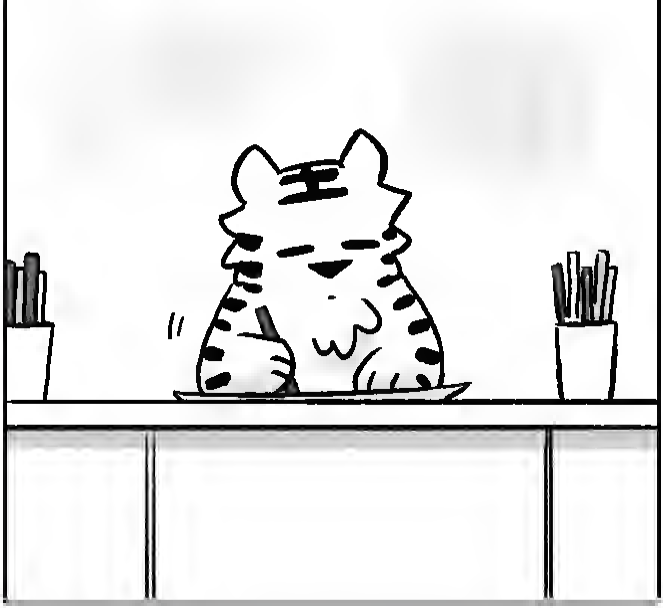
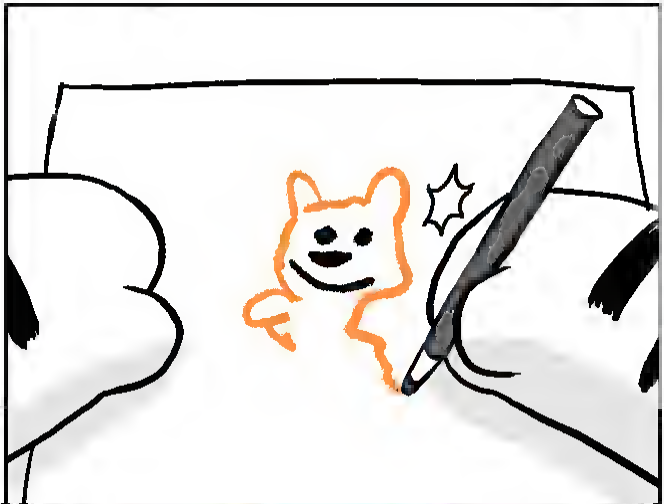
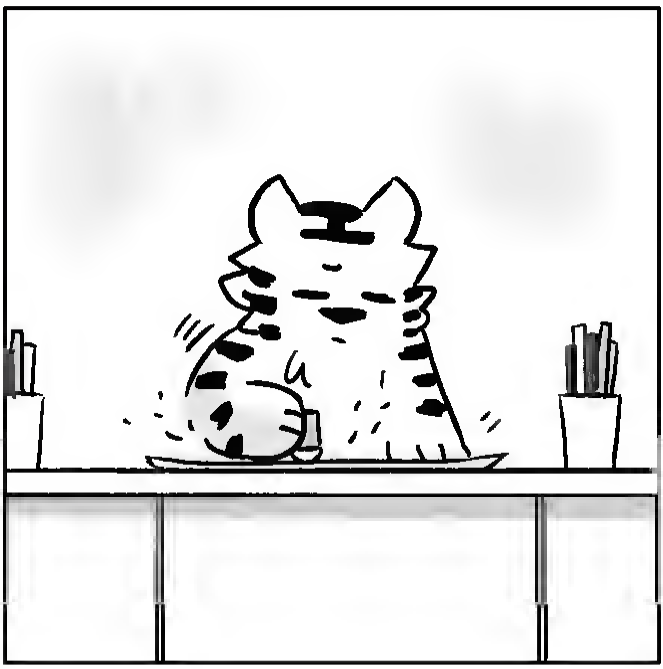
ROAR STREET JOURNAL

Control + Z







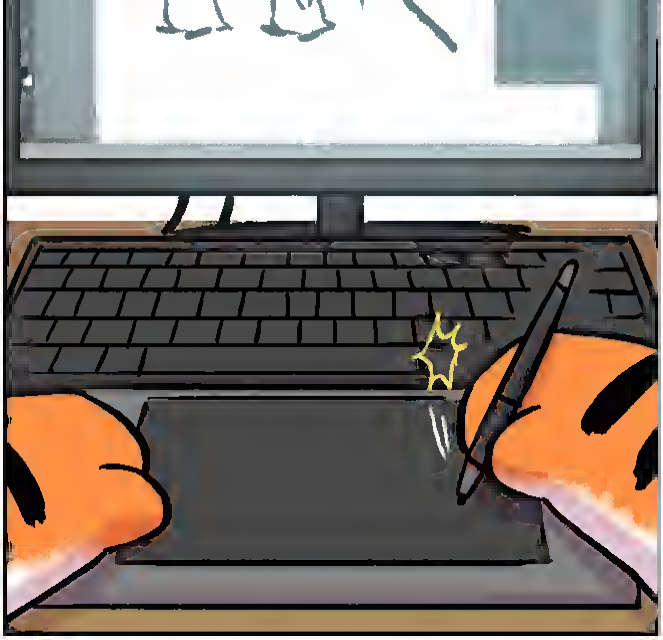
When I was small, I remember my art teacher said

Make mistakes, learn from them and improve on your next drawing.

MUM

As I grew up,

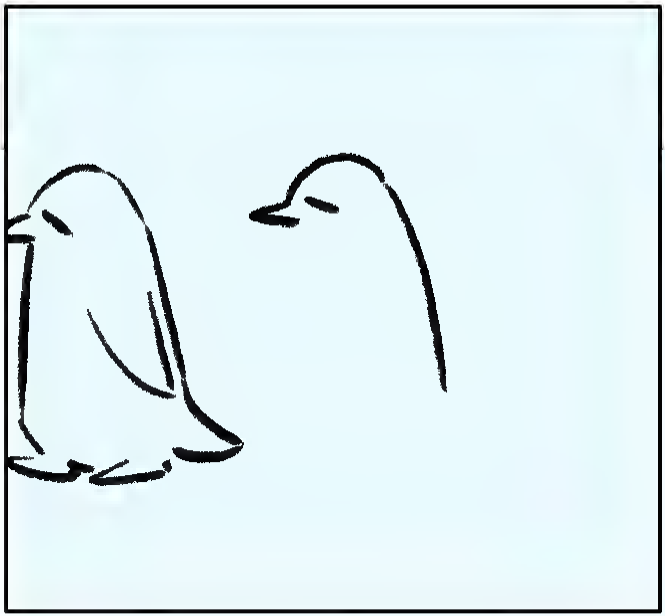
I love to draw using the computer.



The biggest difference between traditional and

digital drawing is that...

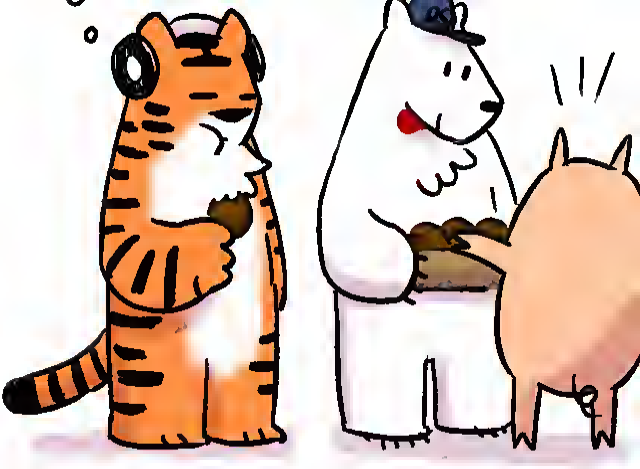
You can press Control + Z to undo your mistakes.



However, there is no Control + Z in life.

late for work

I shouldn't eat so much snacks...



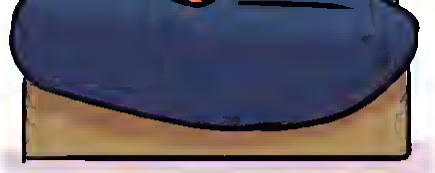
+ 300 kcal

(Hasn't painted traditionally for years)

Just like drawing without a computer,

we cannot undo our mistakes.

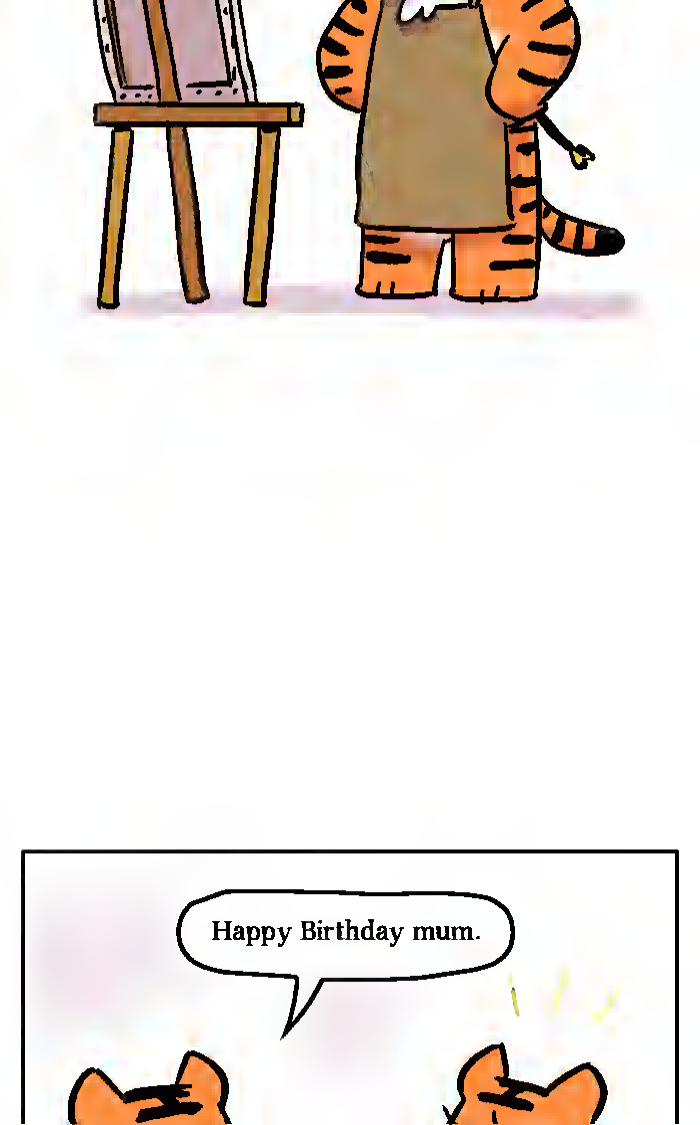
We can only learn to do better next time.



7 am

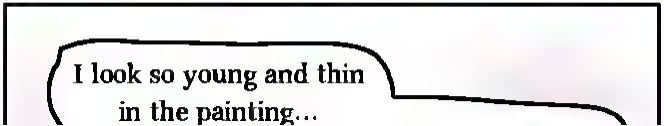
I can keep having snacks if I finish these 3 sets...

It's not perfect...
oh well.



Happy Birthday mum.

Aww,
this is so sweet!
MUM



I look so young and thin
in the painting...

There is no Control + Z in life,

but that's what makes life special.

Rewind time?
Your mum doesn't look
that old and fat!

You're always
young and thin...
